

Olivia _Table

Olivia is a rechargeable battery-powered cordless table lamp. A "touch" control on the head allows switching on/off, dimming, and selecting the color temperature of the light (2700 K or 3000 K). Olivia is equipped with the dimmer memory function, which adjusts the light intensity and memorizes the dimmer steps; consequently, every time it is switched on, the light intensity will correspond to that previously set. It is suitable for both indoor and outdoor use (except gold, silver and copper finishes). The lamp comes with a contact charging base; battery charger included.
