

# Poldina L \_Floor

Poldina L is a rechargeable battery-powered cordless floor and table lamp. A "touch" control on the head allows switching on/off, dimming, and selecting the color temperature of the light (2200 K, 2700 K or 3000 K). It is suitable for both indoor and outdoor use.

An electronic control system monitors the remaining autonomy and ensures a constant luminous flux until the battery runs out. Recharging is therefore optimized and always properly done. The lamp comes with a contact charging base; the battery charger is included. It is provided with a 3-rod kit that allows to choose the height of the lamp among 52, 87 or 122 cm.
