

# Swap \_Table

Swap is a rechargeable battery-powered cordless table lamp. A "touch" control on the base allows switching on/off; the current version allows also dimming (4-step: 100%, 60%, 30%, 6%) and selecting the color temperature of the light to 2200 K, 2700 K or 3000 K. The new Swap is also smaller (29 cm / 11,4 in). It is suitable for both indoor and outdoor use. An electronic control system monitors the remaining autonomy and ensures a constant luminous flux until the battery runs out. Recharging is therefore optimized and always properly done. Swap can be customized with glass, ceramic, or fabric lampshades, to be purchased separately. The lamp comes with a contact charging base; battery charger not included.
