

Pencil _Lighting module

Pencil is a battery-operated portable and rechargeable lighting module, available in three sizes. A "touch" control on one end allows switching on/off, dimming (4-step: 100%, 60%, 30%, 6%) and selecting the color temperature of the light (2700 K, 3150 K or 4000 K). It is suitable for both indoor and outdoor use and salt spray resistant (1500 h). An electronic control system monitors the remaining autonomy and ensures a constant luminous flux until the battery runs out. Recharging is therefore optimized and always properly done. The lighting module can be recharged in two ways: either with the battery charger (pg. 182) or in the docking station, connected to a battery charger (pg. 184). The battery charger is not included.
