

Patèa

Design Federico de Majo, 2023

Fatto a mano / Handmade

Vetro borosilicato / Borosilicate glass

Dall'osservazione degli scogli colpiti dalle onde, nasce la collezione Patèa, decorata con forme poco rilevate che ricordano le patelle, molluschi tipici dei litorali rocciosi del Mediterraneo. Anche la base di ciascun oggetto è decorata con "macchie" colorate, che sembrano depositate sul fondo. La collezione è composta da nove elementi: tumbler, mug, caraffe e vasi, in diverse forme e dimensioni, con decori in vari colori.

Vetro borosilicato, lavorato a mano. Resistente agli shock termici, lavabile in lavastoviglie a 60° C e adatto all'uso in microonde.

From the observation of rocks struck by waves, the collection Patèa originated. Its name comes from the Venetian word for limpet: a mollusk that is typical of the stony shores of the Mediterranean Sea, whose lightly raised shell inspired the shape of the glass decorations. The base of each item is also decorated with colorful "spots" that appear to have sunk and laid down on the bottom. The collection consists of nine items: tumblers, mugs, pitchers, and vases, in different shapes and sizes, with decorations of various colors.

Borosilicate glass, handcrafted. Resistant to thermal shock, dishwasher-safe at 60° C and microwave-safe.
